

## What is Happy Place Music Player?

Happy Place Music Player is a usb-based music interface for your phone. Seamlessly playback usb-based music including official Music Sticks™, or download with the push of a button.

Happy Place Music Player offers all of the amenities we've come to love from modern music players including: favorites tracking, music listening stats, playlist creation, a beautiful music library, and more!

The best part, it's absolutely free!

Our mission is to return privacy and power to the people in a modern physical way.

There are no ads, algorithms or data collection.

You retain control of your music and directly support your favorite artists. Scan the QR code below to download and enjoy this music forever!
